

THE PARTY'S SAFETY.

In the midst of each Presidential campaign the party organs have to meet the cry that the Republican party demonetized silver in 1873. The worst of it is that the charge is true.

The explanation that the act of the party was accidentally made under a misapprehension etc., will not always suit the masses of people.

Seventeen years have passed since that time, during thirteen years the Republican party has been in power and if the act of demonetization in '73 was an accident, the party have had ample time to rectify the error.

But it has not seen fit to do so and stands in the attitude of condoning and endorsing this great wrong.

If we go before the people during another presidential campaign we should be able to present a better record on the silver question. A Republican congress now has the power, if it only had the disposition, to repair this great wrong against the people of the United States. It could undo the work of the London and New York usurers and if it does not act with courage and decision we will be confronted with a Democratic successor to Harrison.

The party is continually assuring the people in its national platform that it is a friend of silver and while it assumes one thing it does exactly the opposite and keeps doing it.

The party cannot afford to lie to people whose votes placed it in power.

We cannot go into the campaign of 1892 with this lie on our record.

The absolute free coinage of silver is the only thing that can wash out the memory of the double dealing and treachery of 1873. Suppose the Windom Bill becomes a law, we are assured that it is all right but between the lines everybody who reads it believes it is all wrong.

What would the people think of the party if it passed and the Republicans who voted for it would have to explain to the people that they had the word of Mr. Windom that it was all right and supposed of course it was. The people would say "That is the story you told in 1873" and after such a mistake the Republican party might as well haul down its sign and go out of business.

The men who are forming laws for the nation must not imagine that the people of the West alone want the bill, but the east wants it and the country north and south wants it and if they don't have it there will be a political revolution in 1892.

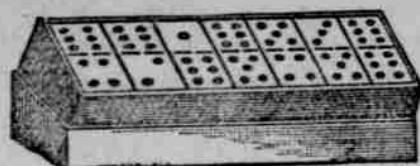

The people of Newfoundland have become greatly dissatisfied with British rule, and during recent demonstrations at St. John's the stars and stripes were conspicuously displayed and thousands of people shouted themselves hoarse when the band played "The Star Spangled Banner." Annexation is openly advocated. Great Britain has no particular use for Newfoundland, and neither has this country. The big island might be given its independence, and allowed to control its own affairs.

OURS is the largest and most complete general outfitting establishment on the Coast. The key to its success is that it furnishes what the people—and all the people—want. It ministers to every demand. There are coarse, stout goods for rough usage, plain, serviceable goods for everyday wear, and fashionable and costly goods from Vienna, Paris, London and New York. Prices are always as low, and, in most cases, lower than those of all other dealers.

These facts are cited for the benefit of out-of-town persons who wish to deal through the mails. We believe that we have stated nothing that is not accepted by those who know us.
